## Installing the Driver

---

### CAUTION

Do not connect your PC to the measuring instrument when you are installing the driver.

---

This section describes the installation procedure using Windows 7 screenshots.

1. On your PC's hard disk, decompress the compressed driver file that you have downloaded. In this example, the file is decompressed in the C:\¥K\MUSB folder.
2. Run the Setup.exe file. The installation wizard starts.

3. Click **Next**. A message confirming that your PC is not connected to the measuring instrument appears.

4. Click **Next**. An installation confirmation dialog box appears.

5. Click **Install**. A progress bar appears, and the driver installation starts.

In Windows 7 or Windows Vista, a User Account Control dialog box opens during the installation.

6. Click **Yes**. The installation continues.

In Windows 7 or Windows Vista, a Windows Security dialog box appears.

---

7. Click **Install**.

When the installation is complete, the installation completed dialog box appears.

8. Click **Finish**. The dialog box closes.

The USB driver is installed to the following folder.

Windows 7 or Windows Vista

32 bit: **C:\Program Files\YOKOGAWA\Drivers\TM\YKMUSB**

64 bit: **C:\Program Files(x86)\YOKOGAWA\Drivers\TM\YKMUSB**

Windows XP: **C:\Program Files\YOKOGAWA\Drivers\TM\YKMUSB**

9. Connect the measuring instrument to your PC.

**Windows 7 or Windows Vista**

An icon appears in the notification area, and the driver is installed automatically.

When the driver has been successfully installed, "Yokogawa USB Device" appears in Device Manager.

---

## Windows XP

The Found New Hardware Wizard starts. 1. Select **No, not this time**, and click **Next**.

Select **Install the software automatically**, and click **Next**.

When the installation is complete, the message "Completing the Found New Hardware Wizard" appears. Click **Finish**.

### **Note**

In Windows XP, you need to carry out the above procedure every time you connect a different measuring instrument.

When the driver has been successfully installed, "Yokogawa USB Device" appears in Device Manager.

## Uninstalling the Driver

---

### **CAUTION**

Do not connect your PC to the measuring instrument when you are uninstalling the driver.

---

1. In Control Panel, remove YKMUSB (YKMUSB64 for the 64-bit versions of Windows 7 and Windows Vista).
